

Space-Saving Oval Soup Island

Quality you can depend on for the life of the fixture.

Provide a unique shopping experience that will bring your customers back time and time again!

R&D Fixture's "Decor Match" philosophy allows customization to fit your brand and your store's decor.

How can you draw your grocery customers in and keep bringing them back? Reward them for their loyalty by providing food service and merchandising that saves them time and provides them with real value. Providing "home made" soups and chowders to busy customers not only promotes customer loyalty, but also sells related items.

Our oval soup bars are space saving and elegantly outfitted to service your customers, with built in safety and maintenance features that simplify upkeep.

Model shown in standard colors (white, black, almond) Optional colors and finishes available.
